and Waddell of the Detroit pro team gave the fans some classy the Hanson Cafe team by a 43-36 margin to win the major prize.

Thursday night's games saw Gaylord go down to a 42-26 de-feat by the Hanson Cafe; East Jordan lost to Roscommon 36-25, and Traverse City nosed out the Petoskey Bon Tons 25-22, while Now It's Donkey Spike's eliminated West Branch

The opening game on Friday night between Hanson Cafe and Roscommon proved to be any body's ball game until the final quarter, when the locals, paced by Hanson who was high point man with nine points to his credit, held a four-point lead till the final bell sounded, and came out victorious by a 40-36

Traverse City, with Wahl getting ten points for high on his team, defeated Spike's by a 35-23 count. Harrison was high point man for Spike's with nine. Alma playing Cheboygan for their initial game in the tournament, had little difficulty in winning by a 38-29 score. Barton getting fifteen points for Alma was high. Clark was high for the

On Saturday night, Alma, led by Barton who garnered fourteen points, eliminated Traverse City from the finals, 37-19. Traverse missed plenty of shots in this game otherwise a far different score might have been registered.

The final game between Alma and the Hanson Cafe proved to be a real thriller and one of the best games in the tourney. The high spots of the game were the shooting of Barton and Howard for Alma who rang up twenty-six and Chalker retaliated by getting kept rushing them constantly and it did not give Alma much time for set shots. Good defensive and offensive work on the part of both teams was featured throughout the game and the and Priscilla Mullens, of whom he

GRAPHIC GOLF By BAST BALL

SELF analysis of the follow by unnoticed in the swing. Not that the results would not show some error was prevalent but that a perusal of the swing from this instance the position at the right in the above illustration shows clearly that the player has left his weight largely on the left leg throughout the stroke. In a mana ball player's method of batting up pop flies. Instead of a true swing it is really an application of lever age.

Possibly such a player is bothered by a chronic slice as the clubhead cuts across the ball from left to right caused by this method of hitting. It the left hand figure the true weight transference from the right foot to the left has taken place. From this position it is obvious that the clubhead has come onto the ball straight along the line of flight with correct swinging motion. At the finish the player is in a position of perfect balance and relaxation.

quite different from the tense figure at the left. @ Bell Syndicate. -WNU Service.

Chosen Beauty Queen

Mitzie Greene, varsity baseball player with hair on his chest and freckles on his hands, was elected beauty Queen of Miami university at Oxford. Ohio, by students who turned down twenty; five girl candidates. Green promptly announced his "abdication." and declared his picture would go into the college yearbook section reserved for the beautiful girls of the campus over his "dead body."

42 Faces on Postage Stamp Peter Illes, of Salgotargan, Hungary, has drawn forty-two colored portraits of distinguished men and women on one postage stamp. They included portraits of Pope Plus XI, Emperor Francis Joseph, Lord Baden-Powell, former Queen Zita, Prince Arnad of Hungary and Admiral Horthy, regent of Hungary.

KNOW THYSELF

DOES A MAN MAKE A BETTER HUSBAND IF HE HAS HAD SEVERAL LOVE AFFAIRS?

N GENERAL, a man who has had the opportunity of knowing several women as friends is more likely to make a suitable selection of a mate than the mar, who had only one sweetheart. The same applies to women. However, there are so many exceptions to this that a rule would be silly. Some people who never had but one sweetheart before marriage awaken to the fact that they had little knowledge of different people when single, and start taking interest in others after marriage. This is very unfortunate. would prefer for my son to marry girl who had had dates with other boys besides him, and I would prefer for him to go around with several girls before he picks one for a bride-but he might be just as happy if he didn't.

FIRST AID TO THE _ **AILING HOUSE**

By Roger B. Whitman

It is the private recipe of Louis

W. Schimmel, brewer for more

than half a century, that is re-

sponsible for that distinctive

quality and flavor so favored by

thousands in Altes Lager. Mr.

Schimmel, after many years of

painstaking care and untiring

effort, perfected his private

recipe and Altes Lager was

immediately acclaimed as

the better beer. Its indi-

vidual quality and flavor

spread its fame far and

wide. Because it is brew

ed to this private and

exclusive recipe, Altes

successfully-imitated

HOUSES WITHOUT CELLARS

OR economy in construction, it is becoming the custom to build small houses without cellars. One method is to dig trenches for the foundation walls and their footings. and to fill the space between with a concrete slab. For small houses that are light in weight, foundations are not necessary. The slab is some feet larger than the house all around, with the house walls resting on it. With this construction, the collees from 7 to 8, to which the slab should have steel reinforce ment. With proper methods either plan is satisfactory, and reduces the cost of the house by about 15 per cent-that being the usual relation of the cost of a finished cellar to that of the house. The concrete slab should be waterproof, and should be insulated to prevent the chilling of the finished floor. With foundation walls, the concrete slab should be so firmly bonded to them that cracks cannot develop. One excellent method of bonding is to set reinforcing strips into the walls at the proper level, so that when the concrete slab is poured, it will be rigidly connected to the walls.

The earth should be excavated for eight inches or more, and replaced with cinders, tightly packed and leveled. This will provide a good degree of insulation. For waterproofing, the cinders should be covered with heavy waterproof felt. Adjoining sheets should be overlapped by three inches, and the ends and edges should be carried up the inside of the foundation wall to above the level of the finished floor. The concrete is poured on top. Plenty of time should be allowed for the thorough drying of the concrete before the further finishing

Even with this waterproofing of the floor, it will be unsafe to lay a wood floor in direct contact with it, because of possible rotting. When the concrete has dried out, it should be painted with a thick layer of liquid asphalt. While this is still soft, wood flooring is laid on it, and will become firmly bound to the concrete. This method of laying flooring on concrete is coming into common use, and has proved very satisfactory. The layer of asphalt under he wood floor gives springiness. A special form of asphalt known as mastic is made for this particular purpose. Linoleum can be laid on the concrete with the same mastic. Asphalt or rubber tiles can also be used.

In laying a floor slab, provision must be made for water and sewer pipes. Openings should be left around them, so that in the event of trouble they can be reached without breaking into the slab.

Beating the Gun

He had been roaming round the historic old mansion. Presently he returned, looking white and trembling in every limb.

"I-I've just seen your family ghost," he stuttered to the owner of the mansion.

"Ha, ha!" laughed the other. "Gave you a start—what?" The guest glanced nervously over his shoulder.

"Believe me," he said, nervously ''I đidn't need a start.''

Womans Club

BEER IN THE

The Womans Club met Monday. March 22nd, at the home of Mrs. Jennie Sorenson.

Michigan Centennial Night was he theme of the program. Mrs. Your gave a very interesting talk n the Early History of Michigan. Miss Hemmingsen told us ome very interesting and enteraiming things about the early matery of Grayling. Pictures of arly scenes in Grayling were shown to the members. Followng her talk others were eager to elate incidents they knew concerning the early history of our

city. After hearing so many in cresting things about Shoppenagons. I am sure that all of us who are newcomers regret the fact that we were not here sooner so that we could have enjoyed that privilege. He must have been a remarkable character.

Because of the Easter holidays " be next meeting will be postponed until April 5th. The April 5th meeting will be held at the home Mrs Welsh and will be the final one for the year.

IN YEARS

It is with much appreciation on the part of the County Agri-cultural Agent and the District Club Agent, that the 4-H Club program in Crawford county is observed to be the finest in several years. Boys and girls are nappy in their work. They appear to regard their activity not pear to regard their activity not tollimin, Raikaska, Clare, Olsego port and Watson be given the as work, but rather as practical and Presque Isle are for the purconstructive pleasure. There are constructive pleasure. There are pose of clearing up defective problems to solve, it is true, but titles to lands optioned to the criting to their old.

> also three Clothing Club leaders into but later wishes to withdraw with their 35 members. These without a justifiable reason leaders and boys and girls are therefor. progressing nicely.

Achievement Day is not very parents are much interested in that event. Boys and girls are preparing for Achievement in a way that will bring success; that is, by being prepared for it before-hand. Those in the County Agent's office, with the help of the leaders, expect to prepare a good program for the activities of the day. Last year the program was good. Perhaps it can be bettered this year-

There is a very distinct improvement in the manner in I which the boys are finishing their Handieraft articles this year This is possible because the leaders and members are cooperating nicely in smoothing the articles end by omitting varnish from the finishing process. We are delighted to see that a very general use of oil or water stains is in evidence, and that white shellac is being used to make the protec tive covering over the stain. The Clothing Club leaders are taking much interest in the new bulleins used this year. Both leaders and members report that the new plan of doing the clothing prolects is much improved over last

vear. Observation shows that 4-H. Boys and Girls are doing their preparatory tasks unusually well this year. That is a happy state of affairs. Leaders and children want to be proud of their accomplishments. Then their parents will be also, and their collective job of helping to build good citizens and happy homes will be realized.
